AUGUST 26
2022

THE OFFICIAL BI-WEEKLY NEWSLETTER OF THE CITY OF MILPITAS

MESSAGE FROM CITY MANAGER STEVEN G. MCHARRIS

Women's Equality Day commemorates the passage of the 19th Amendment to the U.S. Constitution, granting women the right to vote. However, while women in some states could already vote before 1920, women in other states were blocked from voting after ratification. The voting rights of Native American women were not recognized until 1924. For Chinese American women, it was 1943, and for Japanese and other Asian American women it was 1952. While African American women were actively engaged in the women's suffrage movement, they remained barred from voting for decades. It wasn't until the passage of the Voting Rights Act in 1965, that African American women were granted the right to vote.

Women's Equality Day gives us an opportunity to celebrate women who bring a different perspective to leadership. I take pride in sharing that the City of Milpitas is at the forefront of advocating for women's equality. The City is deeply committed to breaking barriers, and making a difference to help improve the quality of life for everyone in Milpitas and inspiring the next generation of women leaders. While on the subject of next generation women leaders, I would like to acknowledge the exceptional women in the City. We are especially privileged to have Vice Mayor Carmen Montano,

Councilmember Karina Dominguez, and Councilmember Evelyn Chua on the City Council - who continue to make Milpitas a *best in class* City. I would also like to recognize the executive leadership team and all other female employees in the organization who chose their careers in Milpitas and rose through the ranks, benefiting from the City's commitment to supporting women.

When the California Commission on the Status of Women and Girls (CCSWG) announced their \$5 million grant program, the idea of creating a Women's Task Force in Milpitas emerged. I am happy to share that the City received a \$25,000 grant that helped with the establishment of a Task Force that will implement the principles of the Convention on the Elimination of All Forms of Discrimination Against Women (CEDAW). The Task Force will provide resources to address issues affecting many women in the City. Some of these issues include but are not limited to: domestic violence, wage gaps, and accessible childcare. As we all reflect on the significance of *Women's Equality Day*, let us not forget about the continuing struggle that many women still endure in ensuring that there is equal economic opportunity, educational equity, and an end to gender-based violence.
