	CONSTRUCTION TRAILERS AND SUPPORT FACILITIES		Approved By: Building Official

The following items shall be satisfied for the City of Milpitas to allow construction trailers or construction support facilities to be located at or near construction sites:

- 1) Trailers and facilities shall be located within a reasonable distance to portable or permanent restroom facilities or shall be self-contained and serviced.
- 2) Trailers and facilities may be equipped with self-contained electrical power or be connected to an outside power source. An electrical permit will be necessary if a temporary power pole and panel is required.
- 3) Police Department and Public Works clearance is required if construction trailers are parked on a Public Way (Street).
- 4) Where trailers or construction support facilities are to be placed in an easement, permission from the entity in charge of the easement shall be obtained prior to placement.
- 5) Trailers or facilities shall be seismically anchored when required and USA 811 shall be provided prior to anchoring.
- 6) Construction Support Facilities shall comply with 2022 California Building Code sec.11B-201.4 as applicable.
