a) Low Income	\$169	CPI	[b]
b) All Others	\$357	Y	

Notes

[a] If meter is not accurate, deposit is refunded. If meter has been tampered with, the resident or business is charged for the repair.

[b] For residential customers who demonstrate to the City a household income below 200 percent of the federal poverty line, the City will limit any service restoration charges during normal operating hours to fifty dollars (\$50), and during nonoperational hours to one hundred fifty dollars (\$150) for 2020. The limits will only apply if the City's service restoration charges actually exceed these amounts. These limits are subject to an annual adjustment for changes in the Bureau of Labor Statistics' Consumer Price Index for All Urban Consumers (CPI-U) beginning January 1, 2021.

* The City's utility rate schedule is adopted separately. Beginning in Fiscal Year 2023/24 the City will consolidate the listing of utility rates into a separate schedule.

Notes

- [a] See City of Milpitas Municipal Code Section VIII-2-5.33. Permit applications are due ninety (90) days prior to commencing discharge to the sanitary system or expiration of existing discharge permit. Any person who fails to file an application for a discharge permit prior to discharge shall be assessed a penalty for delinquent filing as follows: (1) Up to and including thirty (30) days delinquency, the penalty shall be fifty percent (50%) of the permit fee. More than thirty (30) days but less than one year delinquency, the penalty shall be one hundred percent (100%) of the permit fee. (3) More than one(1) year delinquency, the penalty shall be one thousand percent (1,000%) of the permit fee. (b) Such penalties shall be in addition to any other penalties or fines that may be levied, and in addition to any other remedies that the City may have with respect to the discharge.
- [b] See City of Milpitas Municipal Code Section VIII-2-5.50. Any person who intentionally, accidentally, or negligently violates any provisions of this Chapter, any provision of any permit issued pursuant to this Chapter, or who intentionally, accidentally, or negligently discharges waste or wastewater which causes pollution, or violates any effluent limitation, national standard of performance, or national pretreatment or toxicity standard, shall be civilly liable to the City in a sum up to ten thousand dollars (\$10,000) for the first day in which such violation occurs, up to twenty-five thousand dollars (\$25,000) for the second day in which such violation occurs, and fifty thousand dollars (\$50,000) for each additional day.
- [c] See City of Milpitas Municipal Code Section VIII-2-6.02. Where rates are herein specified to be in accordance with the use of water, all such premises shall be separately metered. Where such metering is not provided, or for newly constructed units, the City shall make a reasonable estimate of the volume of water consumed to be used as a basis for sewer service charges.
- [d] See City of Milpitas Municipal Code Section VIII-2-6.03. In the event of a failure to pay the charges as provided for sewage service, the City is authorized to disconnect sewer or water service, or both.
- [e] See City of Milpitas Municipal Code Section VIII-2-6.04. All accounts are due and payable within fifteen (15) days of the date of the bill. Accounts shall become delinquent and a late fee equal to five percent (5%) of the amount due shall be imposed if a payment has not been received by 5:00 p.m. on the due date.
- [f] See City of Milpitas Municipal Code Section VIII-2-7.01. Each connector shall pay a fee to City for issuing of each permit, for the inspection of each house lateral, house sewer or side sewer, the sum of five dollars (\$5). Where connector has on file with the City cash deposit for inspection of work, no inspection fee shall be required. In such case, all cost and expenses incurred by City in inspection of the connection shall be made from said deposit.
- [g] See City of Milpitas Municipal Code Section VIII-2-7.02. Before the issuance of a permit for the installation of a house lateral, connector shall pay City a fee which shall include the following: (A) An engineering charge to defray the cost of processing the permit application, which shall be an amount equal to forty cents (\$0.40) times one-half the width of the street expressed in feet in which the house lateral is being constructed. (B) A short side charge shall be collected in all cases where the main or trunk to which connection is being made is located between the center line of the street and the property to be served. Said short side charge shall be an amount equal to four dollars and fifty cents (\$4.50) times the distance in feet between the center line of the street and the main or trunk sewer to which the connection is being made. The purpose of this charge is to equalize connection cost for property on both sides of the street.
- [h] See City of Milpitas Municipal Code Section VIII-2-7.03. The City Council may disburse to connectors whose house laterals connect to a main or trunk sewer at a point beyond the center line of the street an amount equal to \$4.50 times the distance in feet between the center of the street and the main or trunk sewer to which said connection was made.
- [i] See City of Milpitas Municipal Code Section XI-16-14. Any person who intentionally or negligently violates any provision of this Chapter or any provision of any permit or certificate issued pursuant to this Chapter shall be civilly liable to the city in a sum not to exceed \$25,000.00 per day for each day in which such violation occurs.

* These fees are intended to mirror fees authorized by the Santa Clara County Emergency Services Agency. If Santa Clara County EMS updates fees subsequent to the adoption of this schedule, this schedule shall be presumed to reflect updated amounts. In the case of discrepancies, fee amounts authorized by Santa Clara County EMS shall supersede the amounts listed above. The City will periodically examine costs to ensure that fees collected do not exceed the City's program costs of service.
