2. **Approval of the Agenda**

Motion /Second: Tran/Montano

AYES: All

3. **Approval of the Minutes**

Motion /Second: Tran/Montano

AYES: All

4. **Public Forum**

No public comment received

5. **New Business**

a. Bike Lane Improvement Implementation Strategy

Staff presented a presentation on the current bike lane improvement implementation strategy. Bikeway improvements are installed per Bikeway Masterplan adopted 2009. Bikeway improvements are currently included in the annual Street Resurfacing Project to maximize the use of limited funds. Buffered Bike Lane and Green Bike Lane are bikeway improvements that enhance bicyclist safety on the streets. Most of the Green Bike lanes installed are on transit routes and adjacent to transit stations. Additional opportunities to install Green Bike Lanes are through the creation of a bike improvement specific project, roadway striping maintenance activities, and reimbursement to developers as part of private development projects.

b. Citywide Traffic Congestion Assessment

The majority of City traffic congestion is a result of cross-county commute trips with a smaller percentage from local vehicle trips within the city. County level traffic congestion impacts generally lie on city streets that traverse east and west. Citywide Traffic Modeling Project, No. 4297 will assess the vehicle traffic level-of-service at signalized city intersections and identify to reduce intersection delay and improve travel time. The project is anticipated to begin at the end of Summer 2022, and completed in 12 months.

6. **Adjournment**

- Mayor Tran adjourned the meeting at 4:45 PM.
- The next Transportation Subcommittee meeting would be scheduled on Friday, April 8th, 2022 at 3:00 PM.
